Sprint 2 Report

Product Name: Jukebox
Team Name: 4 8s and a Crown
Date: 11/4/16

Stop Doing:

We need to stop losing focus during Scrum meetings, making sure that we first discuss what we have done and if anyone is blocked on a task, then use the remaining time to remove those obstacles from our path.

Start Doing:

We need to make sure that all members can attend every meeting, even if it means changing our regular meeting times in order to cater to one member's schedule.

Keep Doing:

We should continue practicing good communication skills, which involves being honest about what we are struggling with, being patient while explaining material to the members who are less experienced in Android, and consistently checking in with each other over Slack to discuss progress.

Work Completed/Not Completed:

User Story 1: Complete
We are able to grab the Wifi name and create a playlist

User Story 2: Incomplete
Still working on the song searching interface, will be completed in Sprint 3.

Work Completion Rate:

Total User Stories Completed: 1
Total Ideal Work Hours: 24
Total Number of Days: 15

~ 75% Done
